

Book on software projects released

BY OUR CORRESPONDENT

Bangalore, Dec. 18: *Managing Global Software Projects* by Gopalaswamy Ramesh, was released at Oracle Technology Park on Tuesday. The book aims at equipping better students, teachers and practitioners to meet the needs of the industry.

According to an official release, the book priced at Rs 425 is published by Tata McGraw-Hill.

"It deals with common sense concepts in project management, processes, communications that are often ignored but are highly essential to a project's success," it said.
